MYCETOPHILIDAE

- Ezechia digona* Edwards, 1925: Slovakia, Zbojnická Cave, Borinka (7768), 15.iv.1976, 3-6 m, 2♂♂; Natural stony tunnel Dufart, Letanovce (7088), 29.xii.1977, 1♂ 1♀, leg. V. Košel, P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) clypeata* (Lundström, 1911): Slovakia, Čingov Cave (eastern), Spišské Tomášovce (7088), 17.i.1987, 10-15 m, 1♂; Čertova Cave, Spišské Tomášovce (7088), 4.xii.1988, 4♂♂; Mnichova Cave, Hrabašice (7088), 21.xi.1993, 5-10 m, 2♂♂, all V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) distendens* (Lackschewitz, 1937): Slovakia, Stratenská Cave, Stratená (7187), 12.i.1986, 50-60 m, 1♂; Ružová Cave, Hrabašice (7088), 20.iv.1988, 1♀, all V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) fimbriata* (Lundström, 1909): Slovakia, Jaskyňa (Cave) pod Zelenou horou, Hrabašice (7088), 3.iii.1987, 3♂♂; 2.iii.1988, 2♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) furcata* (Lundström, 1911): Slovakia, Stratenská Cave, Stratená (7187), 24.iii.1973, 3♂♂. V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) hammi* (Edwards, 1925): Slovakia, Jaskyňa (Cave) pod Zelenou horou, Hrabašice (7088), 21.ii.1976, 1♂ 9♀♀, V. Košel leg., J. Martinovský det. New species to the Slovak Republic.
- Ezechiospis (s.str.) intersecta* (Meigen, 1818): Slovakia, Stratenská Cave, Stratená (7187), 10.i.1988, 2♂♂; Vojenská Cave, Stratená (7187), 10.viii.1988, 0-5 m, 1♂, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) januarii* (Lundström, 1913): Slovakia, Stratenská Cave, Stratená (7187), 24.ii.1973, 3♂♂ 3♀♀, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) lackschevitzianna* (Stackelberg, 1948): Slovakia, Kláštorná Cave, Hrabašice (7088), 9.i.1988, 15-20 m; Vlčie diery Cave, Stratená (7187), 8.viii.1986, 0-10 m, 4♂♂ 3♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) landrocki* (Lundström, 1912): Slovakia, Jaskyňa (Cave) pod Zelenou horou, Hrabašice (7088), 3.iii.1987, 2♂♂ 2♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) ligulata* (Lundström, 1913): Slovakia, Stratenská Cave, Stratená (7187), 10.i.1988, 15-20 m, 1♂; 8.iii.1988, 45-55 m, 1♀; Poráčska Cave, Poráč (7090), 22.i.1991, 25-30 m, 1♂, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) magnicauda* (Lundström, 1911): Slovakia, Stratenská Cave, Stratená (7187), 24.ii.1973, 1♂; Zbojnická Cave, Borinka (7768), 15.iv.1976, 1♂, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) oltenica* (Burghele-Balacesco, 1965): Slovakia, Vojenská Cave, Stratená (7187), 10.i.1988, 0-5 m, 1♂; Vlčie diery Cave, Stratená (7187), 16.viii.1988, 10-15 m, 2♂♂; Mnichova Cave, Hrabašice (7088), 21.xi.1993, 5-10 m, 1♂, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (s.str.) pseudoindecisa* Lašťovka et Matilé, 1974: Slovakia, Vlčie diery (Holes), Stratená (7187), 31.x.1976, 0-5 m, 3♂♂; Koniarova Cave, Stratená (7187), 4.ii.1977, 30-35 m, 1♂; Stratenská Cave, Stratená (7187), 30.iii.1985, 30-40 m, 1♂, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) unguiculata* (Lundström, 1911): Slovakia, Koniarova Cave, Stratená (7187), 4.ii.1977, 10-15 m, 1♂; 19.viii.1991, 5-10 m, 1♀, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Ezechiospis (s.str.) vizzavonensis* (Edwards, 1928): Slovakia, Stratenská Cave, Stratená (7187), 24.ii.1973, 1♂; Vlčie diery Cave, Stratená (7187), 16.viii.1988, 10-15 m, 2♂♂; 22.vii.1989, 10-15 m, 3♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Ezechiospis (Xenexia) pollicata* (Edwards, 1925): Slovakia, Čingov Cave (eastern), Spišské Tomášovce (7088), 17.i.1987, 10-15 m, 5♂♂ 8♀♀; Pavúčia Cave, Hrabašice (7088), 3.iii.1988, 2♂♂ 2♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Pseudexechia trisignata* (Edwards, 1913): Slovakia, Zlatá diera Cave, Slovenský raj (7088), 19.xii.1988, 5-10 m, 1♂; Maštal Cave, Borinka (7768), 4.xi.1993, 2♂♂ 3♀♀, V. Košel leg. et det. New species to the Slovak Republic.
- Pseudorymosia fovea* (Dziedzicki, 1910): Slovakia, Natural tunnel Dufart, Spišské Letanovce (7088), 29.xii.1977, 3♀♀; Vojenská Cave, Stratená (7187), 17.viii.1988, 1♂ 1♀, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.
- Rymosia affinis* Winnertz, 1863: Slovakia, Zelená Cave, Stratená (7187), 9.x.1985, 2♂♂; Čingov Cave (eastern),

Spišské Tomášovce (7088), 17.i.1987, 10-15 m, 1♀; Pavúčia Cave, Hrabašice (7088), 3.iii.1987, 1♂ 1♀; Mošnická Cave, Nízke Tatry Mts (7083), 4.vii.1989, 1♀, V. Košel leg. et det. New species to the Slovak Republic.

Rymosia fasciata (Meigen, 1804): Slovakia, Mnichova Cave, Hrabašice (7088), 21.ii.1973, 2♀♀; Zbojnická Cave, Borinka (7768), 15.iv.1976, 1♂, V. Košel leg., P. Lašťovka det. New species to the Slovak Republic.

Rymosia spinipes Winnertz, 1863: Slovakia: Kláštorná Cave, Hrabašice (7088), 9.i.1988, 20-25 m, 2♂♂, V. Košel leg. et det. New species to the Slovak Republic.

Speolepta leptogaster (Winnertz, 1863): Slovakia, Cave in Sokol, Kráľovany (6880), 27.vii.1985, 1♀; Kečovská Cave, Kečovo (7588), 30.iv.1991, 1♂; Zbojnická Cave, Borinka (7768), 1.vii.1989, 4♂♂, V. Košel leg. et det. New species to the Slovak Republic.

Tarnania dziedzickii (Edwards, 1941): Slovakia, Kláštorná Cave, Hrabašice (7088), 9.i.1988, 45-50, 1♂; Suchá vyvieračka Cave, Spišské Tomášovce (7088), 24.vi.1989, 10-15 m, 2♂♂ 1♀, V. Košel leg. et det. New species to the Slovak Republic.

STRATIOMYIDAE, SCIOMYZIDAE

Rudolf ROZKOŠNÝ, Masaryk University, Kotlářská 2, 611 37 Brno, Czech Republic

STRATIOMYIDAE

Allognosta vagans (Loew, 1873): Slovakia or., Malé Trakany near Tisa River (7698), deciduous forest, 4.vi.1988, 22♂♂ 1♀, J. Roháček leg. et coll., R. Rozkošný det. New species to the Slovak Republic.

Berkshiria hungarica (Kertész, 1912): Moravia mer., Lanžhot, lowland forest near the confluence of Dyje and Morava rivers (7367), 14.v.1991, 1♀ and 7.v.1992, 1♂ ex puparium, found 5.v.1992 under the bark of *Populus alba*, R. Rozkošný leg., det. et coll. - Known to occur in Sweden, Finland, Russia, Ukraine, Romania and W Siberia. New species to the Czech Republic.

Eupachygaster tarsalis (Zetterstedt, 1842): Slovakia mer., Hegy-Farok (8177), 22.vi.1960, 1♀; Štúrovo (8278), 27.vi.1960, 1♂; Kamenica n. Hronom (8178), 27.vi.1960, 1♀; all V. Zeman leg., R. Rozkošný det., Museum of E Bohemia Hradec Králové coll. The first reliable records from the Slovak Republic.

Oxycera morrisii Curtis, 1833: Slovakia bor., Stankovay near Kral'ovany (6881), salt marsh, mixed forest along stream, 3.vii.1986, 1♀, J. Roháček leg. et coll., R. Rozkošný det. New species to the Slovak Republic.

Pachygaster leachii (Curtis, 1824): Bohemia bor., Duchcov (5348), 2 km E, 220 m a.s.l., abandoned garden, 1.vii.1993, 1♀ and deciduous forest, 1♂; 3 km E, 220 m a.s.l., 29.vii.1993, poplar shrubs, 1♂, M. Barták leg. et coll., R. Rozkošný det. (cf. BARTÁK 1995). New species to Bohemia.

Zubrachia tenella (Jaenicke, 1866): Bohemia mer., Volary (7049), car net. 28.vi.1992, 1♀; Šumava Mts, Plechý Mt. (7249), 22.vii.1992, on vegetation, 1♀; both M. Barták leg. et coll., R. Rozkošný det. New species to Bohemia.

SCIOMYZIDAE

Anticheta atriseta (Loew, 1849): Bohemia mer., Vráž near Písek (6650), damp meadow, 3.vi.1993, 1♂ and shore line of a pond, pan traps, 25-26.v.1995, 1♀, M. Barták leg. et coll., R. Rozkošný det. New species to the Czech Republic.

Colobaea bifasciella (Fallén, 1820): Bohemia mer., Vráž near Písek (6650), damp meadow, 400 m a.s.l., 2.vi.1994, 1♂, M. Barták leg. et coll., R. Rozkošný det. New species to Bohemia.

Colobaea distincta (Meigen, 1830): Bohemia mer., Vráž near Písek (6650), damp meadow, 1.vi.1993, 1♂ and 31.v.1994, 1♂, M. Barták leg. et coll., R. Rozkošný det. New species to Bohemia.

Pherbellia brunnipes (Meigen, 1838): Bohemia mer., Šumava Mts, Plechý Mt. (7249), on *Glyceria maxima*, 1050 m a.s.l., 22.vii.1992, 1♀, M. Barták leg. et coll., R. Rozkošný det. New species to Bohemia.

Tetanura pallidiventris Fallén, 1820: Bohemia mer., Vráž near Písek (6650), damp meadow, 2.vi.1992, 2♂♂ 7♀♀; Bohemia bor., Duchcov (5348) 2 km E, deciduous forest, 16.vi.1993, 1♂; Štěpánov near Bilina (5449), stream bank, 18.vi.1994, 1♂, 4♀♀; all M. Barták leg. et coll., R. Rozkošný det. (cf. BARTÁK 1995). New species to Bohemia.
